

Indac Spin Slick

DESIGNED & MADE IN
NEW ZEALAND
**SPIN
SLICK**

INDAC SPIN SLICK

Is the easy way to come unstuck, overcoming problems of splatter & excess molten material sticking to your product during the Spinweld process.

***No more sticky bits
in inappropriate places***

Indac has developed a spray on lubricant available in 2 handy sizes to overcome the difficult removal of splatter and build-up of degraded polyethylene resin that occurs during the Spinweld process, preventing damage to the base product. Indac Spin Slick is a user friendly product that has alleviated this problem and leaves an easy to clean surface.

INSTRUCTIONS:

Hold spin weld in place, spray Spin Slick around the outer area. Spin in weld. wipe with a cloth, peel excess away with a flat knife.

Non- Hazardous Ingredients:
Water, Thickener, Surfactant, Biocide
Fragrance & Colour.

Keep out of eyes, do not ingest.
